

Deliver the Training and Tools to Keep Tech Talent Ahead of the Curve.

Solutions Built for Today's Organizations and Tomorrow's Workforce

Our offerings are designed to align with business objectives and address continuous training needs for tech and dev professionals. Choose the solution that meets your needs:

TECHNOLOGY + DEVELOPER

Drive performance, retention and growth for tech talent across your organization by adding Skillsoft Technology and Developer to your offering. Built to keep your tech professionals on their game and ready for the next digital disruption, this option offers Skillsoft Aspire™ learning journeys that include video courses that support career paths for the highest demand roles, as well as an engaging multi-modal experience that includes practice labs, mentoring and critical business and leadership courses to achieve well-balanced tech leaders.

TECHNOLOGY + DEVELOPER EXPERT

Developed in conjunction with our industry experts who carefully curate multi-modal resources into hundreds of learning channels, Skillsoft Technology + Developer Expert collection delivers the most engaging and robust multi-modal learning experience to upskill, grow and drive performance of tech and dev professionals across all levels of your organization. Leaders can access Skillsoft Aspire™ learning journeys, video courses, hands-on practice labs, certification prep, boot camps, virtual live mentoring and the largest library of the latest eBooks and audiobooks.

Instructional Design – Our courses are instructionally sound because they are developed by industry experts and reviewed by in-house eLearning professionals to ensure quality. We also invest heavily to ensure that our library is refreshed on a three-year cycle.

Channels – Experience over 500 pre-curated channels mapped to the competencies that matter most to leading global companies and assign learning paths to specific audiences.

Inclusive Learning – Users can access a wide range of learning modalities, including videos, digital books, audiobooks, practice labs and live learning to learn in the way that works best for them. These options make our training accessible to people with different learning styles and abilities.

Beginner to Expert levels – We curate content in terms of beginning/intermediate/advanced/expert, according to the standards and pre-requisite knowledge set by the certification providers and vendors. When we define our levels, we look to industry standards such as SFIA and NICE, as they are developed by industry standards bodies.

Expert Access – We invest in expert instructors that are responsible for the development of our instructionally sound content assets. Leading experts and mentors that provide an affordable fast track to IT certification and offer test preparation to improve pass rates.

Talent Development – Curated playlists and curriculum maps guide learners through the stages of their career, consistently building on existing knowledge.

Certification – Support for more than 100 professional IT certification exams from leading software, hardware, cloud and professional organizations, with a tracked pass rate over 90%.
